ing to International Patent Classification (IPC) or to both national classification and IPC

LDS SEARCHED

m documentation searched (classification system followed by classification symbols)

7 A01H

mentation searched other than minimum documentation to the extent that such documents are included in the fields searched

onic data base consulted during the international search (name of data base and, where practical, search terms used)

SIS, EPO-Internal, WPI Data, PAJ

DOCUMENTS CONSIDERED TO BE RELEVANT

Priority	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
	<p>NELSON OLIVER E: "The gametophyte factors of maize." THE MAIZE HANDBOOK., 1994, pages 496-503, XP008013956 Springer-Verlag New York, Inc.; Springer-Verlag 175 Fifth Avenue, New York, New York 10010, USA; Heidelberger Platz 3, D-1000 Berlin, Germany page 499 -page 502</p> <p style="text-align: center;">--- -/--</p>	<p>1-16</p>

☐ Further documents are listed in the continuation of box C.

Patent family members are listed in annex.

Special categories of cited documents:

- * document defining the general state of the art which is not considered to be of particular relevance
- * earlier document but published on or after the international filing date
- * document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- * document referring to an oral disclosure, use, exhibition or other means
- * document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *G* document member of the same patent family
